Verbal Description

Broken candelero, with 4 complete and 4 partial holes preserved. Appears to have been made by using a finger to make the holes - there are faint fingernail marks in some holes. Inter paste is largely unoxidized. In addition, hole interiors are gray from burning; gray res is mostly at the bottoms of holes. The vents are square on the bottoms and pointed at the top, and are irregular, with bumpy edges. Vents are 1.1 - 1.2 cm high by 0.4 - 0.5 cm wide. Holes are irregular as well, with top dimensions larger than bases. The biggest discrepancy is 2.4 x 2.7 cm at the top, with a base dimension of 1.6 x 1.8 cm. Holes begin 1.2 - 1.5 cm above the base, and end roughly 1.8 cm below the lip.

Decoration consists of groups of 3 diagonal lines on the exterior, between vent holes. There is also a faint incised line on the upper surface between and around the holes.
